## FAHL LARYNGOTEC HME COMPATIBLE SILICONE TUBES

Soft, pliable and lightweight laryngectomy tubes made from medical grade silicone. The neck flange has been adapted to improve the fit with the neck anatomy. The lateral openings for fixation of tube holder have been positioned to reduce chances of tearing.

The tube offers a transparent, inconspicuous design with a 22mm adapter: KOMBI for HME placement. A fenestrated option, LINGO is also available
