

# STOMA BUTTONS

## FAHL LARYNGOTEC KOMBI STOMA BUTTON FIX

This Stoma button is designed to keep the tracheostoma of laryngectomised patients open while minimising the contact surface with the delicate tracheal mucosa

The shape of the LARYNGOTEC® stoma button is optimally matched to the tracheostoma

- Transparent, soft, pliable and lightweight
- Eyelets to help secure the device in place
- Available in size 8-12
- Long term use (3-6 months)
- HME compatible
