

## HANDS-FREE HME

### FAHL LARYVOX® HANDS-FREE VALVE KOMBI HME

- Translucent and lightweight
- Adjustable silicone membrane for hands-free speech (laryngectomised patients with voice prosthesis)
- Fits in to any conventional baseplate, laryngectomy tube or stoma button
- The unique open housing enables the use of any conventional HME cassette
- Allows the user to talk hands-free or through finger occlusion
- The HME is positioned to provide no obstruction of airflow to the membrane

Available in two strengths:

ORDER REF: 21983 - NORMAL RESISTANCE - INDIVIDUALLY PACKED

ORDER REF: 21982 - LOW RESISTANCE - INDIVIDUALLY PACKED

NORMAL RESISTANCE

LOW RESISTANCE

## HANDS-FREE HME

### BLOM-SINGER® HANDS-FREE (ATSV II) SYSTEM

Adjustable Tracheostoma Valve II (ATSV II), diaphragm/faceplate and body

The two-piece valve inserts into the tracheostoma adhesive housing that is applied to the skin surrounding the stoma

ORDER REF: BE 8025H - SINGLE ITEM

### ATSV II HANDS-FREE HUMIDIFIER® CAP & 7 FOAM FILTERS

The HumidiFilter ATSV II Cap is a twist-on plastic filter cap that fits over the ATSV II. It is designed to help keep the ATSV II foam filters in place and comes with seven specially treated HME Foam filters

ORDER REF: BE 1010 - SINGLE ITEM

### BLOM-SINGER® REPLACEMENT FOAM FILTERS

Specially treated foam discs that fit ONLY with the HumidiFilter ATSV II Cap shown above

ORDER REF: BE 1030 - PACK OF 30 - NON STERILE

### BLOM-SINGER® DIAPHRAGM/FACEPLATE FOR ATSV II
